

U.S. Large Cap Growth Sub-Fund

FUND OBJECTIVE

The U.S. Large Cap Growth Sub-Fund seeks long-term capital appreciation.

INVESTMENT STRATEGY

This Sub-Fund invests primarily in U.S. equity securities issued by large-cap companies and will invest up to 20% of the portfolio in non-U.S. securities. Equity securities include, but are not limited to, common stocks, preferred stocks, securities convertible into common stocks, rights and warrants. The Sub-Fund's portfolio will generally contain 25 to 35 positions.

INVESTMENT PROCESS

The investment team of the Investment Manager uses a bottom-up, idea-driven, growth style with a long-term investment horizon, coupled with a distinct valuation discipline. The team seeks to identify companies, one-by-one, which have growing businesses, impressive fundamentals, above-average profitability, and successful managements. Companies typically have 10% or better historical revenue and earnings growth, generate free cash flow, and have attractive financial returns that are stable or rising. The Investment Manager's macro view of the world informs both company choices and position sizes.
